### Part A: Listening

There's a great story in the news today about a 74-year-old retired teacher, Frane Selak. The headlines are calling him the luckiest man in the world - and it may well be true. Many of us buy our weekly lottery tickets and never win anything, but Selak recently won more than \$1 million with the first lottery ticket he had bought in forty years. With the money, he bought a new house, a car, a speedboat and married his girlfriend. But that's not the only reason why Selak is thanking his lucky stars. He is also lucky to be alive. A few years ago, he was driving his car in the mountains, when he saw a truck coming straight towards him. His car crashed off the road through the forest for a hundred metres, ploughed into a tree and exploded. Fortunately, Selak had jumped out. But this was not the first of his lucky escapes. In fact, Selak has become the master of lucky escapes. Back in 1962, he was travelling from Sarajevo to Dubrovnik when the train came off the rails and fell into an icy river. Rescue workers found seventeen corpses in the water, but Selak had swum to safety, suffering only shock, bruises and a broken arm. A year later, he was involved in a plane crash in which nineteen people died. But before the crash, Selak had jumped out of the plane and fallen in a haystack. Again, the only injuries were cuts and scratches and the usual shock. His next disaster was a bus accident when four people died, The bus left the road and Selak again found himself in a river. But he was becoming something of an expert at this sort of situation and again swam to safety. By this time, said Selak, his friends had stopped visiting him. A few years later, he suffered burns - and lost a lot of his hair - when his car caught fire at a petrol station. The petrol pump was old and had sprayed petrol all over the hot engine of his car. Then, in 1995, he was in hospital again. Another bus had knocked him over. And what does Selak think of all this good luck? He's just glad that he's been able to live long enough to enjoy his million-dollar lottery win.

**Part D: Writing (20 points)**  
**Marking Criteria**

**Title**

According to attractiveness and style	0-2 points
---------------------------------------	------------

**Task, Content (6 points)**

very good attempt at task, all points covered, easy to understand	6 points
good attempt at task, most points covered, very little effort required when reading	5 points
task attempted, rather simple, not all points covered, some effort required when reading	4 points
poor attempt at task, difficult to understand	1-3 points

**Grammar (6 points)**

wide range of structures, complex sentences, hardly any errors	6 points
good range of structures, well-structured sentences, few errors	5 points
a range of structures, non-impeding errors	4 points
very basic structures, some impeding errors	1-3 points

**Vocabulary, Style (6 points)**

very wide range, ambitious, no spelling mistakes	6 points
a range attempted, solid and continuous, a few spelling mistakes	5 points
simple, limited range, spelling mistakes omnipresent	4 points
very limited, repetitious, spelling impedes communication	1-3 points
